

ABB

QUALIFIED ASSEMBLY MANUFACTURER

ENERGIZE

YOUR BUSINESS WITH US

With over 30 years of experience, specifically since 1989, we have been committed to provide our customers with the highest quality products and with a superior customer care. To satisfy our promises we deliver our customers type-tested ABB-Striebel & John panels from our Factory which is licensed by ABB-Egypt as a panel builder since 2002. To excel, we rely on building a long term close relationship with our customers, not only during the project different phases, but also during after-sales services. Our head-quarter office in Cairo Downtown, the factory is located in the industrial zone of 15th of May and our main storage is located in Abasyya. Our location gives us the opportunity to fall under the COMESA agreement.

environment and safety policy

As we claim that “Our Vision, Our People”, we are keen to protect our employees and customers as well as the public and the environment. Achieving HSE (Health, Safety and Environment) performance goals is placed on an equal level with other critical business objectives and integrated into our daily operations in both the factory and the sites, so that each job can be completed safely and in a way that is protective of the environment. We continually seek to improve our Health, Safety and Environment policy to ensure that it remains aligned with the best practices in the industry.

& Stability
Quality

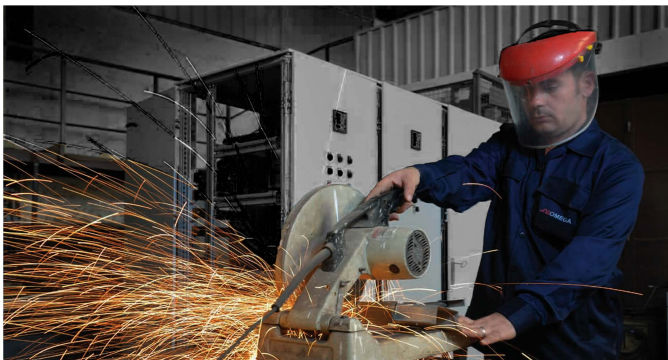

Starting from assembling small, basic distribution boards 32 years ago, today we had diversified into manufacturing all types & ranges of low voltage switchgear panels and control boards, for standard and customized solutions, complying with the latest IEC standards.

Moreover, as an authorized panel builder by ABB, we have been committed to deliver our customers highly stable type-tested switchgear systems manufactured by ABB- Striebel & John complying with EN 60439-1, with a rated current of up to 4000A. We are considered one of the main ABB distributors in Egypt as well.

PRODUCTION

Omega's standard Low-Voltage Type-Tested Assembly is designed to suit clients' needs from different market segments prioritizing reliability, high safety, and high quality power delivery. These objectives are obtained through various forms ranging from protection and switching apparatus to control and measuring sets to power factor improvement and forms separations. We work more as a tailored/customized supplier based on the needs of the client.

WE
customize
your need.

We provide, ICS in which deliberate guidance or manipulation is used to achieve a prescribed value for a variable. Control systems include SCADA, DCS, PLC, IED, RTU and other types of industrial control systems.

We help to ensure the safe, reliable, efficient, and compliant operation of your electrical distribution systems, including the assets connected to it. They can help you to avoid electrical fires and prevent shock, recover from outages more quickly and safely and improve uptime by avoiding unplanned outages. Also, we find ways to reduce energy costs and optimize maintenance to get more life from electrical assets.

We have been leading the market of Mechanical & Electrical projects in Egypt for so many years with the reputation of professionalism, accuracy and outstanding after-sales services. For more than 25 years, we have done significant projects for several entities in both governmental and private sectors. Conquering both sectors in different industries with our full capabilities, we have done projects for Aviation Industry, Oil & Gas Industry, Water Stations, Sanitation Projects, Hotels, Resorts and Sports Clubs, High Energy Industries and office buildings.

We supply, design, engineering and commissioning of low voltage, medium voltage, MCCs, Transformers and RmUs. We also provide electromechanical contracts. We supply, install and commissioning of variable speed drives, soft starters, LV & MV electric motors and pumps.

When it comes to power supply and distribution systems; safety and reliability is not questionable. Our key success factors for more than 30 years in the regional market mainly rely on those two essential pillars.

Over the years, abiding by such pillars, we became one of ABB distributors in Egypt and the agents of several leading companies such as Murphy, Fanox and RAEL.

Agents for FC MISURE - Italy

Digital and analog instruments for measuring electrical quantities V, I, KVAR, Hz. etc, measure transducers, signal transmitter, current and voltage transformer.

Agents for MURPHY

ISO9001 manufacturer of instrumentation and controls for engines and engine-driven equipment.

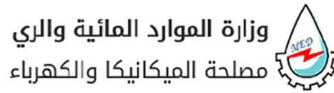

Agents for FANOX - Spain

Motor, Generator and Pump protection relays, Voltage and Hz monitoring relays, Earth leakage relays, Electrical Multimeter and timers.

Distributor for ABB

Low voltage electric products breakers, contractors, overload and sheet steel enclosures up to IP 54..
